

Albany Speed Shop & Albany-Saratoga Speedway

introduce

1/4 Mod Driver Developmental Series

For CHILDREN 5-11 years old!

SPECIFICATIONS & RULES

All chassis are the same.

There are two different body styles: Mod Lite and Little Bully.

Mini modlites will be raced as delivered, **no exceptions**. Everything is specified by American Modlites, LLC (AML) except springs and suspension settings.

It is our goal to keep this as simple as possible. The purpose of this series is to teach kids how to drive and ease them into bigger, faster, more sophisticated cars later. The parents and children will be able to learn as they go.

Engines are the reliable GX series.

Kids 5-8 will run the GX120.

Kids 9-11 will run the GX160 or GX200.

We are testing all three engines. These engines are self-contained and will have a pull start and a centrifugal clutch. Engines are rear mount.

Engines will be sealed and distributed by American Modlites

AUTHORIZED DEALER: ALBANY SPEED SHOP

Fuel is controlled by AML. Regular unleaded is the fuel. It will be tested each night with a specific gravity tester. Oil may be drained and refilled by AML. No additives in fuel, oil or on air filter.

Mini Modlites have front and rear suspension. They have shocks with coil over springs. The springs are adjustable and spring rates can be changed. There is only one shock for all four corners that may be exchanged or tested by AML.

Mini Modlite **“Little Bully” on the way.**

CONTROLS

Because of the different ages and sizes of kids, pedals and steering are adjustable.

SAFETY

- Remote engine kill
- Five-point racing harness is standard equipment.
- Cars come with standard racing seat. Seat upgrades are available and legal.
- Helmets must be SA rated and must be worn at all times when the driver is in the car.
- Shields must be in the down position when racing.
- Neck collars are mandatory.
- An approved driver's suit, gloves and non-nylon shoes must be worn.
- Racing shoes are suggested.

AML official can inspect any car at any time.
